TO WHOM IT MAY CONCERN

EVALUATION OF THE ERASMUS VISIT

I, the undersigned, hereby confirm that Ing. Miroslav Bahleda (PhD. student in the University of Zilina, Faculty of Electrical Engineering, Department of Telecommunications, Slovakia) did part of his PhD. studies as an SOCRATES/ERASMUS student, from 02.05.2004 to 31.07.2004, at TU Dresden, Department of Electrical Engineering and Information Technology, Communications Laboratory, Chair for Telecommunications, D-01062 Dresden, Germany.

Mr. Miroslav Bahleda studied the WDM networks – dimensioning and teletraffic engineering, Extended Barry-Humblett model for the limited wavelength conversion.

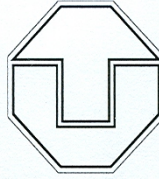

In conclusion, I have to confirm, that Mr. Miroslav Bahleda, was very active in his PhD. study and he also did a good work getting very good scientific results. I evaluate his work positively.

Yours truly,

Prof. Dr.-Ing. Ralf Lehnert
Supervisor of the student

Letter of evaluation (SOCRATES/ERASMUS student)

Name of the student: Miroslav BAHLEDA, Ing.

Sending institution: University of Zilina, Faculty of Electrical Engineering, Department of Telecommunication, Velky Diel, 010 26 Zilina, Slovak Republic.

Receiving institution: TU Dresden, Department of Electrical Engineering and Information Technology, Communications Laboratory, Chair for Telecommunications, D-01062 Dresden, Germany.

Theme: WDM networks – dimensioning and teletraffic engineering, Extended Barry-Humblett model for the limited wavelength conversion.

Duration of the stay: from 02.05.2004 to 31.07.2004

Evaluation of student mobility:

During his stay Miroslav Bahleda continued his research on dimensioning of WDM-based transport networks. Although we not working directly on this topic, his two presentations and his final report gave us very interesting insights in this actual topic. Overall his stay was quite fruitful. There were detailed discussions between him and the other PhD researchers at my chair. He participated in the PhD seminar and also in the course on high-speed networks.
